CAREER OBJECTIVE

Computer Science and Engineering undergraduate (SPI 9.21) with hands-on project experience in full-stack web development (React, Django, MySQL) and a foundation in Java, Python, and cybersecurity fundamentals (VAPT). Looking for an internship where I can contribute to production-level code, sharpen my skills under experienced engineers, and take on real ownership.

EDUCATION

B.Tech in Computer Science & Engineering — LJ University, Ahmedabad

SPI: 9.21 (current)

Higher Secondary — Kameshwer School, Ahmedabad

Percentage: 68%

Matriculation — A-One School, Ahmedabad

Percentage: 79%

TECHNICAL SKILLS

Languages: Java, Python

Web Development: HTML, CSS, React.js

Frameworks & Databases: Django, MySQL, MongoDB (learning)

Tools: VS Code, IntelliJ IDEA, PyCharm, Jupyter Notebook, Git

Coursework: Data Structures & Algorithms, DBMS

PROJECTS

MedWay

React.js, Django, Python, MySQL

- Building a full-stack healthcare platform that lets users compare medicine prices and check real-time availability across nearby pharmacies.
- Designing a generic-medicine recommendation engine based on active salt composition to help users find affordable alternatives to branded drugs.

QueueSense

Python, Flask

- Built a queue management system that estimates and visualizes customer waiting times to help reduce perceived wait.

Travel Planner System

Java, JDBC, MySQL

- Developed a console-based travel planner with persistent trip storage and retrieval using JDBC-backed MySQL.

CERTIFICATIONS

- Vulnerability Assessment & Penetration Testing (VAPT)
- Python Programming
- Introduction to Java — Coursera
- Introduction to HTML, CSS & JavaScript — IBM (Coursera)
